INTRODUCTION

Products manufactured by GREC are:

- Side entry mixers for beverages storage
- Side entry mixers for chemicals storage
- Side entry mixers for petroleum products storage
- Static mixer for water treatment
- Static mixer for inline preparation
- Top entry mixers for product preparation (by blending, dilution, powder dissolution, powder dispersion)
- Top entry mixers for solid suspension in storage vessel
- Top entry mixers for water treatment
- Top entry mixers for food products storage
- Top entry mixers for chemicals storage

Industry sectors which commonly use products subject of our production are:

- 1 - Stainless Steel Vessel Manufacturers for storage mixers
- 2 - Food plants Manufacturers/End Users for storage/preparation
- 3 - Engineering Companies (contractors) for storage/preparation
- 4 - General manufacturing companies where liquids are involved
- 5 - Soap Plants Manufacturers for preparation
- 6 - Bitumen Plants Manufacturers for storage/preparation
- 7 - Biogas Plants manufacturers for storage/preparation
- 8 - Steel Plants manufacturers/End users for storage/solid suspension
- 9 - Waste water treatment plants Manufacturers/End user
- 10 - Ceramic Plants End user for solid suspensions/slip preparation
- 11 - Power Plants Manufacturer/End user, petroleum products storage
- 12 - Manufacturers of plants where soil drilling is involved for solid suspension

Year by Year, please have a look to main customers divided by industry sector
Company GREC started in 2010 with acquisition of DDA mixing division, but we also add a list of important projects handled by DDA in previous years

Please contact GREC if you need additional information on specific projects
